IMMUNOLOGY

CONTENTS

Vol. 57 No. 1 January 1986

Editorial

Review paper

A. M. LEW, E. P. LILLEHOJ, E. P. COWAN, W. L. MALOY, M. R. VAN SCHRAVENDIJK & J. E. COLIGAN: Class I genes and molecules: an update 3

C. PICARD, P. RONCO, P. MOULLIER, J. YAO, B. BAUDOUIN, M. GENITEAU LEGENDRE & P. VARROUST: Epitope diversity of angiotensin II analysed with monoclonal antibodies 19

M. R. WALKER, P. BIRD, D. O. ULAETO, F. VARTDAL, D. M. GOODALL & R. JEFFERIS: Immunogenic and antigenic epitopes of immunoglobulins. XIV. Antigenic variants of IgG4 proteins revealed with monoclonal antibodies 25

J. L. LATHEY, B. T. ROUSE, D. E. WILEY & R. J. COURTNEY: Production and characterization of an anti-idiotypic antibody specific for a monoclonal antibody to glycoprotein D of herpes simplex virus 29

J. SANCHO, E. GONZALEZ & J. EGIDO: The importance of the Fc receptors for IgA in the recognition of IgA by mouse liver cells: its comparison with carbohydrate and secretory component receptors 37

P. R. HARMATZ, K. J. BLOCH, R. E. KLEINMAN, M. K. WALSH & W. A. WALKER: Influence of circulating maternal antibody on the transfer of dietary antigen to neonatal mice via milk 43

B. A. PERI & R. M. ROTHBERG: Transmission of maternal antibody prenatally and from milk into serum of neonatal rabbits 49

K. O'FLYNN, M. RUSSUL-SAIB, I. ANDO, D. L. WALLACE, P. C. L. BEVERLY, A. W. BOYLSTON & D. C. LINCH: Different pathways of human T-cell activation revealed by PHA-P and PHA-M 55

R. NAMIKAWA, T. MIZUNO, H. MATSUOKA, H. FUKAMI, R. UEDA, G. ITOH, M. MATSUYAMA & T. TAKAHASHI: Ontogenic development of T and B cells and non-lymphoid cells in the white pulp of human spleen 61

K. PULFORD, E. RALFKIAER, S. M. MACDONALD, W. N. ERBER, B. FALINI, K. C. GATTER & D. Y. MASON: A new monoclonal antibody (KB61) recognizing a novel antigen which is selectively expressed on a subpopulation of human B lymphocytes 71

H. P. GODFREY, C. V. ANGADI, M. HAAK-FRENDSCHO & A. P. KAPLAN: Concurrent production of macrophage agglutination factor and factor VII by antigen-stimulated human peripheral blood mononuclear cells 77

D. GANEA, M. TEODORESCU & S. DRAY: A low molecular weight proteinase inhibitor produced by T lymphocytes 85

J. W. SIMECKA, J. K. DAVIS & G. H. CASSELL: Distribution of Ia antigens and T lymphocyte subpopulations in rat lungs 93

F. G. M. KROESE, A. S. WUBBENA & P. NIEUWENHUIS: Germinal centre formation and follucular antigen trapping in the spleen of lethally X-irradiated and reconstituted rats 99

J. H. BROCK, T. MAINOU-FOWLER & L. M. WEBSTER: Evidence that transferrin may function exclusively as an iron donor in promoting lymphocyte proliferation 105

A.-M. VAREY, B. R. CHAMPION & A. COOKE: Cyclosporine affects the function of antigen-presenting cells 111

M.-F. BEYA, M. MIYASAKA, L. DUDLER, T. EZAKI & Z. TRNKA: Studies on the differentiation of T lymphocytes in sheep. II. Two monoclonal antibodies that recognize all ovine T lymphocytes 115

J. CARTER, N. S. MAGNUSON, W. C. DAVIS, P. H. MASON, J. A. MAGNUSON, J. E. TALMADGE & P. J. BARR: Development and maintenance of bovine cytotoxic lymphocytes with recombinant human interleukin-2 123

K. S. PICHA & P. E. BAKER: Bovine T lymphocytes. I. Generation and maintenance of an interleukin-2-dependent, cytotoxic T-lymphocyte cell line 131

N. MUKAIDA, T. KASAHARA, J. HOSOI, K. SHIOIRI-NAKANO & T. KAWAI: Effects of anti-Tac antibody on the response of large granular lymphocytes to interleukin-2 137

R. J. CROSS, J. C. JACKSON, W. H. BROOKS, D. L. SPARKS, W. R. MARKESBERY & T. L. ROSZMAN: Neuroimmunomodulation: impairment of humoral immune responsiveness by 6-hydroxydopamine treatment 145

P. N. SHEK, N. G. LOPEZ & T. D. HEATH: Immune response mediated by liposome-associated protein antigens. IV. Modulation of antibody formation by vesicle-encapsulated methotrexate 153

G. A. W. ROOK, J. STEELE, L. FRAHER, S. BARKER, R. KARMALI, J. O'RIORDAN & J. STANFORD: Vitamin D_3, gamma interferon, and control of proliferation of *Mycobacterium tuberculosis* by human monocytes 159

D. ABRAHAM, D. J. WEINER & J. P. FARRELL: Protective immune responses of the jird to larval *Dipetalonema viteae* 165

Vol. 57 No. 2 February 1986

Review paper

P. N. R. NAIR & H. E. SCHROEDER: Duct-associated

lymphoid tissue (DALT) of minor salivary glands and mucosal immunity 171

K. Guy, R. R. Meehan, A. E. Dewar & D. Larhammar: Expression of MHC class II antigens in human B-cell leukaemia, and increased levels of class II antigens and DR-specific mRNA after stimulation with 12-0-tetradecanoyl phorbol-13-acetate 181

S. Marshall-Clarke, J. Harrison & R. M. Parkhouse: Dissociation of murine B-cell proliferation and differentiation by monoclonal antibody, NIM R2 189

J. E. Kay & C. R. Benzie: Lymphocyte activation by OKT3: cyclosporine sensitivity and synergism with phorbol ester 195

I. K. Thomas & K. L. Erickson: Gestational immunosuppression is mediated by specific Lyt 2^+ T cells 201

T. G. Harriott-Smith & W. J. Halliday: Circulating suppressor factors in mice subjected to ultraviolet irradiation and contact sensitization 207

M. R. McDermott, P. Horsewood, D. A. Clark & J. Bienenstock: T lymphocytes in the intestinal epithelium and lamina propria of mice 213

O. Bakouche & D. Gerlier: Presentation of an MuLV-related tumour antigen in liposomes as a potent tertiary immunogen after adoptive transfer 219

S. E. M. Howie, M. Norval & J. P. Maingay: Alterations in epidermal handling of HSV-1 antigens *in vitro* induced by *in vivo* exposure to UV-B light 225

A. P. Robinson, T. M. White & D. W. Mason: MRC OX-43: a monoclonal antibody which reacts with all vascular endothelium in the rat except that of brain capillaries 231

A. P. Robinson, T. M. White & D. W. Mason: Macrophage heterogeneity in the rat as delineated by two monoclonal antibodies MRC OX-41 and MRC OX-42, the latter recognizing complement receptor type 3 239

F. Colotta, L. Bersani, N. Polentarutti & A. Mantovani: Rapid killing of actinomycin D-treated tumour cells by mononuclear phagocytes: reactivity in mouse strains with defective classical tumour cytotoxicity 249

T. Espevik, O. Kildahl-Andersen & J. Nissen-Meyer: The role of monocyte cytotoxic factor in monocyte-mediated lysis of tumour cells 255

C. A. Boswell & C. J. Bayne: Lectin-dependent cell-mediated cytotoxicity in an invertebrate model: Con A does not act as a bridge 261

M. E. Cosulich, A. Risso, G. W. Canonica & A. Bargellesi: Functional characterization of a regulatory human T-cell subpopulation increasing during autologous MLR 265

J. G. Hall: Sulphated polysaccharides, corticosteroids and lymphocyte recirculation 275

P. C. Wilkinson: The locomotor capacity of human lymphocytes and its enhancement by cell growth 281

L. A. Mitchell, T. W. Pearson & J. Gauldie: Interleukin-1 and interleukin-2 production in resistant and susceptible inbred mice infected with *Trypanosoma congolense* 291

L. A. Mitchell & T. W. Pearson: Antibody responses in resistant and susceptible inbred mice infected with *Trypanosoma congolense* 297

A. K. Schröder, F. A. Nardella, M. Mannik, M.-L. Svensson & P. Christensen: Interaction between streptococcal IgG Fc receptors and human and rabbit IgG domains 305

M. O. Labeta, R. A. Margni, J. Leoni & R. A. Binaghi: Structure of asymmetric non-precipitating antibody: presence of a carbohydrate residue in only one Fab region of the molecule 311

S. Nakashima: Isoelectric focusing spectra of antibacterial α-amylase antibody unique for antigen-induced suppression 319

Brief communication

J. A. Moynihan, R. J. Looney & G. N. Abraham: The V_kIIIb light chain sub-subgroup. II. Isotype expression in acquired hypogammaglobulinaemia and as a function of age 325

Erratum 329

Vol. 57 No. 3 March 1986

J. R. Lamb, M. Feldmann, N. Green & R. A. Lerner: Influence of antigen structure on the activation and induction of unresponsiveness in cloned human T lymphocytes 331

M. A. Firer & Z. Eshhar: Induction of Fc_ε receptors on normal murine T cells and IgE binding factor(s) by cross-linked IgE of IgE-pulsed adherent cells 337

E. Simpson, P. Chandler, R. Hunt, H. Hogg, K. Tomonari & A. McLaren: H-Y status of X/X *Sxr'* male mice: *in vivo* tests 345

H. Vie, M. Bonneville, P. Sondermeyer, J.-F. Moreau & J.-P. Soulillou: Limiting dilution analysis (LDA) of cells responding to recombinant interleukin-2 without previous stimulation: evidence that all responding cells are lymphokine-activated potent effectors 351

L. C. McIntosh, L. M. Morrice, Y. Udagawa & A. W. Thomson: Influence of tumour carriage on the production of lymphokines affecting macrophage behaviour 359

W. Borth & M. Teodorescu: Inactivation of human interleukin-2 (IL-2) by α_2-macroglobulin–trypsin complexes 367

G. Colonna Romano, F. Dieli, S. Abrignani, A. Salerno & V. Colizzi: Inhibition of lymphocyte mitogenesis in mice infected with Newcastle disease virus: viral interference with the interleukin system 373

M. L. Dunkley & A. J. Husband: The induction and migration of antigen-specific helper cells for IgA responses in the intestine 379

S. A. Möller, L. Danielsson & C. A. K. Borrebaeck: Concanavalin A-induced B-cell proliferation mediated by allogeneically derived helper factors 387

R. Farkas, Y. Manor & A. Klajman: Generation of B suppressor cells by phytohaemagglutinin 395

E. Claassen, N. Kors, C. D. Dijkstra & N. van Rooijen: Marginal zone of the spleen and the development and localization of specific antibody-forming cells against thymus-dependent and thymus-independent type-2 antigens 399

G. J. VAN DER BRUGGE-GAMELKOORN, E. CLAASSEN & T. SMINIA: Anti-TNP-forming cells in bronchus-associated lymphoid tissue (BALT) and paratracheal lymph node (PTLN) of the rat after intratracheal priming and boosting with TNP-KLH 405

A. D. NASH & W. BOYLE: Depletion by monolayer binding of specific precursors of antibody-forming cells directed against cellular antigens 411

J. GORDON, G. GUY & L. WALKER: Autocrine models of B-lymphocyte growth. II. Interleukin-1 supports the proliferation of transformed lymphoblasts but not the stimulation of resting B cells triggered through their receptors for antigen 419

C. MORENO, J. ESDAILE & M. R. LIFELY: Thymic-dependence and immune memory in mice vaccinated with meningococcal polysaccharide group B complexed to outer membrane protein 425

E. KITA, M. EMOTO, K. YASUI, K. YASUI, N. KATSUI, K. NISHI & S. KASHIBA: Cellular aspects of the longer-lasting immunity against mouse typhoid infection afforded by the live-cell and ribosomal vaccines 431

S. A. WILLIAMSON, N. PARISH, J. D. CHAMBERS & R. A. KNIGHT: Human immune responses to herpes simplex virus, varicella-zoster and cytomegalovirus *in vitro* 437

L. M. BRADLEY, S. M. SHIIGI & A. MALLEY: Anti-I-J alloantisera elicited by immunization of B10.A (3R) (I-J^b) mice with bone marrow-derived macrophages from B10.A (5R) (I-J^k) mice 443

A. SCHEYNIUS, L. KLARESKOG, R. HOLMDAHL & P. LARSSON: Induction of Thy-1 antigen on murine keratinocytes 451

F. SHANAHAN, T. D. G. LEE, J. A. DENBURG, J. BIENENSTOCK & A. D. BEFUS: Functional characterization of mast cells generated *in vitro* from the mesenteric lymph node of rats infected with *Nippostrongylus brasiliensis* 455

D. A. COX, J. B. DIXON & S. MARSHALL-CLARKE: Transformation induced by *Echinococcus granulosus* protoscoleces in unprimed murine spleen cells: identity and MHC restriction of participating cell types 461

A. K. SINGH & S. P. MAKKER: Circulatory antigens of Heymann nephritis. I. Identification and partial characterization 467

T. L. KOPPENHEFFER & B. A. RUSSELL: Unusual complement activation properties of serum immunoglobulins of the pigeon *Columba livia* 473

M. LECLERC, C. BRILLOUET, G. LUQUET & R. A. BINAGHI: Production of an antibody-like factor in the sea star *Asteria rubens*: involvement of at least three cellular populations 479

J. LECETA & A. ZAPATA: Seasonal variations in the immune response of the tortoise *Mauremys caspica* 483

Brief communication

S. D. KYURKCHIEV, M. SHIGETA, K. KOYAMA & S. ISOJIMA: A human–mouse hybridoma producing monoclonal antibody against human sperm coating antigen 489

Vol. 57 No. 4 April 1986

T. KALLAND: Generation of natural killer cells from bone marrow precursors *in vitro* 493

J. A. OWEN, L. A. F. SCINTO, L. KLEIN & C. J. KLINE: Cytotoxic T lymphocytes discriminate between isomeric forms of the same hapten 499

M. CHEN-WOAN, D. D. MCGREGOR, W. V. HARRIS & D. L. GREINER: Monoclonal antibody analysis of *Listeria monocytogenes*-induced cytotoxic lymphocytes 505

P. C. DOHERTY & J. E. ALLAN: Hybrid resistance modulates the inflammatory process induced by lymphocytic choriomeningitis virus-immune T cells 515

R. P. MACDERMOTT, M. J. BERTOVICH, M. J. BRAGDON, G. S. NASH, M. S. LEUSCH & H. J. WEDNER: Inhibition of cell-mediated cytotoxicity by 2-cyclohexene-1-one: evidence for a role for glutathione and/or glutathione–protein interactions in cytolysis 521

A. P. ROBINSON, M. PUKLAVEC & D. W. MASON: MRC OX-52: a rat T-cell antigen 527

L. SCHROD, H. SCHAEFER & R. BURGER: Characterization of a T-lymphocyte membrane protein involved in T-cell function: its contribution to T-cell recognition or cellular interaction 533

A. L. ROTHERMEL & C. E. CALKINS: Rapid loss of feedback suppressor T-cell activity after priming *in vivo* 539

V. K. KUCHROO & W. J. HALLIDAY: Cellular requirements for the suppression of leucocyte adherence inhibition reactions by serum factors from tumour-bearing mice 545

R. M. CRAPPER & J. W. SCHRADER: Evidence for the *in vivo* production and release into the serum of a T-cell lymphokine, persisting-cell stimulating factor (PSF), during graft-versus-host reactions 553

L. A. ROZENSZAJN, C. MUELLENBERG-COULOMBRE, I. GERY, M. EL-SAIED, T. KUWABARA, M. MOCHIZUKI, Z. LANDO & R. B. NUSSENBLATT: Induction of experimental autoimmune uveoretinitis by T-cell lines 559

G. P. LINETTE, P. J. LAMMIE & S. M. PHILLIPS: Allogeneic substitution for nominal antigen-specific T-cell clone reactivity in schistosomiasis 567

L. MOSBACH-OZMEN, S. HUMEZ, M. KOPONEN, P. FONTENEAU & F. LOOR: Cyclosporine facilitates B-cell membrane immunoglobulin capping 573

T. A. DE KRETSER, G. T. H. LEE, H. J. THORNE & D. G. JOSE: Monoclonal antibody CI-panHu defines a pan-human cell-surface antigen unique to higher primates 579

F. N. BOCTOR & H. I. SHAHEEN: Immunoaffinity fractionation of *Schistosoma mansoni* worm antigens using human antibodies and its application for serodiagnosis 587

S. C. KNIGHT, J. FARRANT, A. BRYANT, A. J. EDWARDS, S. BURMAN, A. LEVER, J. CLARKE & A. D. B. WEBSTER: Non-adherent, low-density cells from human peripheral blood contain dendritic cells and monocytes, both with veiled morphology 595

A. SOMEYA: A novel rat monoclonal antibody reactive with murine tumoricidal Kupffer cells and activated peritoneal macrophages from BCG-infected mice 605

R. M. HEALICON & J. C. FOREMAN: Characteristics of histamine release from rat mast cells in relation to the valency of the stimulating ligand 611
